

The Theme for our show in 2023.....

Flight 19 was chartered as an IPMS club in 1973 so we want to roll the clock back and build them like we did back then.

Get out those kits in your stash that were out of the 70's, Monogram, Revell, Atlas etc. and build them like you would have back then. No after-market (replacement decals are ok) resin and photo etch should be used unless it was in the original kit.

Show date is April 15th, 2023 at the G-Star Studio s soundstage in West Palm beach.

The Miami Rum Runners will be displaying a group build of the aircraft that took place at the Battle of Midway in 1/48 scale.

50 vendor tables available and they are starting to move. \$25 each and 4 for \$100. Let me know if your looking to vend and how many tables, not taking deposits as this time just interest level
